

KEISER STRENGTH

# INFINITY SERIES TRIPLE TRAINER

**NOT JUST BETTER MACHINES,  
BETTER SCIENCE**

Keiser is always challenging the status quo of fitness science by exercising the most powerful muscle: the brain. While competition starts and ends within the limits of a machine, Keiser starts with the potential of the human body and develops smarter technology to unknow the limits of speed, efficiency and safety.

**KEISER®**

ENOUGH'  
ISN'T.™**

# FUNCTIONAL TRAINING

What's the key to Keiser's success with groups like firefighters, NASA, professional athletes and the military? It's an approach built on functional training, which lets them train at the speed they perform their jobs in the real world. True functional training requires training at speed - something you can ONLY do with our machines, as Keiser pneumatic resistance isn't slowed down by gravity.

## INFINITY TRIPLE TRAINER

The Triple Trainer takes the Functional Trainer and triples it by packing all of the features and benefits into a space-saving, triangular-shaped column that can accommodate up to three exercises at one time. Today's gyms are incorporating areas dedicated to cable and functional training protocols, where multiple machines are required to service the needs of customers. Just like the Functional Trainer, the Triple Trainer performs an unlimited number of exercises, ranging from rehabilitation to sports-specific applications. It's available in bolted and unbolted models.

**KEISER**® | BECAUSE...  
**'GOOD ENOUGH' ISN'T.™**

## FEATURES

- Complete control of resistance levels
- Smooth pneumatic resistance to reduce shock loading to connective tissues and joints
- Takes up less space with a small footprint and maximizes time with multi-user pieces that allow for group training
- Unlimited possibilities for training - any load, any speed, any plane
- Versatility that allows you to customize your workout
- ADA Compliant - Section 44 Disable Access Tax Credit

## SPECIFICATIONS

### HEIGHT

91" / 2311 mm

### WIDTH

104" / 2642 mm

### LENGTH

57" / 1448 mm

### WEIGHT

400 lbs / 181 kg

### RESISTANCE RANGE BILATERALLY

0 - 106 lbs / 0 - 48 kg

### RESISTANCE RANGE UNILATERALLY

0 - 53 lbs / 0 - 24 kg

### CABLE LENGTH BILATERALLY

72" / 1829 mm

### CABLE LENGTH UNILATERALLY

144" / 3658 mm
